The single authentic account of the incident published as yet comes from Dr. Hasbrouck, the dentist, in this city, who was present at the tooth-drawing. Dr. Hasbrouck says: "I went along to administer anaesthetic gas, and to do what dental work might be necessary in any dental work might be necessary in a lental work might be necessary in any disease of the mouth. The Rev. J. N. Braden, of Sunbury, t. Pa., who is visiting relatives in Beaver County, made probably the highest backward jump on record yesterday, says the New Brighton News. He was walking from John Potter's farm, in Hacit coon township, to the home of his aunt. Ellen Braden, when he thought he would stop and rest. He leaned back against a fence, placing his arms on the rail behind him.

A chill of horror struck him as his arms sank into the springy folds of a huge blacksnake which had been stretched along the top rail. Mr. Braden is an athlete of no mean acquirements, but his feat on feeling the writhing snake under his chow probably breaks the world's record for a standing high jump backward. He just sprang into the air—that wiss all he did but he landed on the other side of the fence, having just cleared the ride rail without a scratch.

The snake sallied down off the fence on the jumps a side on the other side of the fence, having just cleared the ride rail without a scratch.

An Old Man Offers to Pay for His Ride on an Elevator.

"One" called out the man who runs the elevator of the New York Life Building, as he stopped at the first floor, 1255 the Kansas City Times. "Two" is the password for the second, "Three for the third floor, and so on up to "Ten," when the top floor is reached.

On a trip yesterday the elevator was crowded with men. All of them seemed to be intent on business, but there was a peculiar expression on the face of one man in the corner as the elevator ascended and the number representing the floor increased in size. The corners of this man's mouth dropped lower and lower, and his hands were thrust deeper and deeper into his trousers pockets. When the elevator stoped at the ninth floor the old fellow seemed releved, but his hands went still deeper when the cage started again.

"Ten?" called out the boy.
And not until then was the cause of the old man's anxiety known. He pulled out nine cents, handed them to the elevator man and exclaimed:

"There, conductor, that's nit the fare I have; but I'll walk down." "One!" called out the man who rut the elevator of the New York Life Bull-

Taste in Window Boxes.

Window boxes which adorn our Sum per homes may be rendered doubly cautiful if care is used in the selection of colors. As, for instance, all white flowers are charming in a seagreen tiled box, or a white porcelair box filled with nasturtiums, or pale if not more than one variety is placed in a window-mixed they do not look so well.
